-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 14 May 2007.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

DETAILED ACTION

Claim Objections

Claim 19 is objected to because of the following informalities: The claim is dependent upon itself. Appropriate correction is required.

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 15-17 are rejected under 35 U.S.C. 103(a) as being unpatentable over EPO 1042978 in view of Fond '702.

There is disclosed in the European reference a cartridge containing one or more beverage ingredients and being formed from substantially air and water-impermeable materials, the cartridge comprising a disc-shaped outer member 20 having a central axis, an interior storage chamber containing the ingredients, a hollow inwardly directed cylindrical extension (figs. 1 and 2) centered on the central axis, an upper face positioned radially outward from the central axis, an outlet/inlet 28 axially aligned with the extension, and an inlet/outlet 26 aligned with the upper face on an opposite side of the cartridge.

There is disclosed in Fond a disc-shaped cartridge 1 containing one or more beverage ingredients 5 and being formed from air and water impermeable materials, the

Art Unit: 1761

cartridge comprising a storage chamber, wherein the aspect ratio of the vertical height of the storage chamber to the breadth of the chamber is between 0.10 and 0.43 (see col. 2, lines 45-50).

It would have been obvious to one skilled in the art to modify the cartridge of EPO 1042978 with that taught in Fond, for the purpose of constructing a beverage cartridge of such size and shape so as to be compatible to different size coffee machines.

Allowable Subject Matter

Claims 1-3, 6, 7, 9, 14 and 18-21 are allowed.

Response to Arguments

Applicant's arguments filed 14 May 2007 have been fully considered but they are not persuasive. Applicant argues that EP 1042978 fails to disclose a cylindrical extension on an opposite side of the cartridge from an inlet. Applicants recitation of an inlet and outlet can be structurally met by either of the openings shown in EP 1042978. Taking this into consideration, the hollow inwardly directed member (not labeled) shown in the drawings adjacent to inlet/outlet 26, meets the claimed limitations.

Conclusion

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not

Art Unit: 1761

mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
